Please keep in mind:

1. This game contains images that may flash in a pattern that could trigger an epileptic seizure. Persons with epilepsy should not play *this or any high-action videogame*.
2. Be sure power is turned off when inserting or removing TurboCD's
3. Never play TurboGrafx CD's in your stereo CD player.
4. Never forcibly bend your CD Game. (Duh!)
5. Do not clean the CD with volatile liquids such as paint thinner or benzene.
6. Always keep this TurboCD in its case when not in use.
7. Eat your vegetables.
8. Do not leave your TurboGrafx on and unattended, as leaving a paused or still image from any video game system on your television screen for a prolonged period may cause a burn-in image on your television screen - which means permanent damage!
9. Do not play any game for an extended period of time without taking a break. Take a walk, read a book, play some B-Ball, in essence, get a life beyond your TurboGrafx-CD system.

Duplication, copying, or rental of this software or manual is prohibited.

STORY

NEAR THE CENTER OF THE VASTEEL SOLAR SYSTEM LIES THE PLANET BELOSE. SINCE THE BEGINNING OF RECORDED HISTORY, BELOSE (AND ITS OUTPOSTS ON NEIGHBORING PLANETS) HAS BEEN RULED BY A SUCCESSION OF EMPERORS FROM THE FARACIA LINEAGE. BUT THIS GENERATION WILL BE DIFFERENT.

THE PEOPLE OF BELOSE HAVE GROWN DISCONTENT WITH THEIR SYSTEM OF RULERSHIP, AND THE CURRENT EMPEROR, RODRIGUEZ FARACIA, HAS BEEN PROVEN INEFFECTIVE. RODRIGUEZ HAS TWO SONS. FALIALL, HIS ELDEST SON, IS IN LINE TO BECOME THE NEXT EMPEROR OF BELOSE. STEFAN, THE IDEALISTIC YOUNGER BROTHER, WANTS DESPERATELY TO CHANGE BELOSE FOR THE BETTER, BUT SEES LITTLE OPPORTUNITY TO MAKE HIS DREAM A REALITY.

BUT CRIES OF THE PEOPLE CANNOT BE IGNORED. CHANGE WILL COME TO BELOSE IN UNEXPECTED WAYS. HERE BEGINS THE BLOODIEST CHAPTER IN THE HISTORY OF THE VASTEEL SYSTEM...

BATTLE MODES & SAVING

BATTLE SCREEN

When fighting against another ATAC you must fight until you have destroyed all of the enemies HP. In battleship combat, you must destroy all the batteries in order to achieve victory. If you fight for a prolonged period of time your fuel supply will start to run out and you will begin to lose HP, resulting in the eventual death of your ATAC.

DESTROY THE CORE!

In order for you to achieve victory and move to the next map, you must destroy your enemy's core. However, if your core is destroyed you will lose instead. Therefore, it is a good idea to keep your core heavily guarded. (Duh!)

HOW TO SAVE IN THE SCENARIO MODE

1. Due to the amount of data required for each save there is only one save file with four data slots. The game may be saved anytime during gameplay. If you save in the middle of a map the save will be put into the "VasteelM" file. *After* you finish each map you can choose one of three data slots to put the save information in.
2. To load a game select from one of the four data slots. You may also enter the password that you received after completing the previous map. To input the password simply move your direction key to the appropriate number or letter and press button I (Use button II to cancel).

HOW TO SAVE IN THE VERSUS MODE

1. The game may be saved only during gameplay. Due to the amount of data required for each save there is only one save file. This data is shared with the file used in the Scenario Mode. If you save a versus game during a battle you will erase the scenario mode data.

	Space Factory	2	Rich in valuable supplies to advance your army.
	Space City	2	Supplies are low but the income makes it a must to conquer.
	Space	1	Since there are no obstacles the moving range of the ATAC is normal.
	Asteroid	3	Filled with debris that can damage your ATAC.
	Space Current	2	During battle the movement of an ATAC is restricted.

Movement cost for battleships and transport ships is always 1.

DESTROY THE ENEMY BASE

STRATEGY

If you begin the simulation game as Stefan you will start at Nohma. You need to break through Faliall's front line and destroy the core. After the core is destroyed the next battle will begin.

If the city, factory, or base is occupied with one of the enemy's units you must destroy it in order to conquer the base. Otherwise, all you have to worry about will be the core.

After winning Nohma, Stefan must decide where to go next.

Cadar offers valuable information to Stefan.

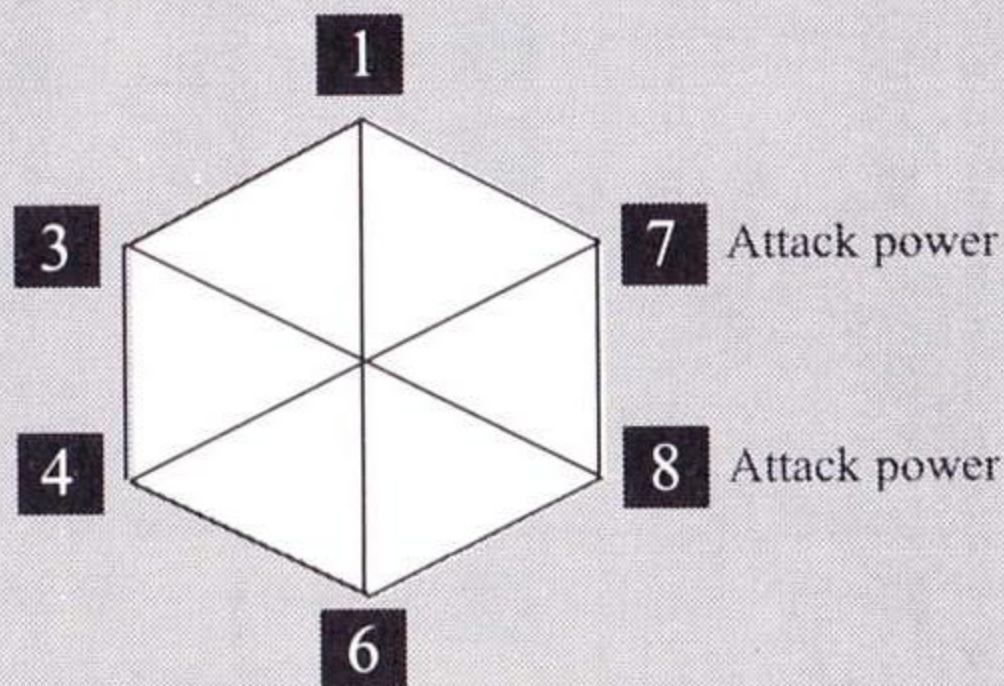

ARCADE ACTION

You must decide where to send your troops next. Choose your move carefully!

Royal Weapons

The History of the ATAC

The ATAC was originally developed by mining interests on Belose with the goal of automating the mining process. When revolution began to be whispered throughout the planets of Vasteel, the engineers of the Royal Army quickly decided to turn the ATAC into an efficient combat and patrol tool. Thus, ATACs were turned from peaceful, beneficial activity to a malignant control tool...

To claim the reward offered by Buster, a terrorist organization broke into the military complex and stole the plans that were used in the design and building of these Advanced Technology Armored Combatants. The terrorists delivered the plans to Buster, who set about re-tooling his factories to produce these advanced war machines.

After the security breach was discovered, Emperor Faracia decided to start a new development think tank dedicated to improving on the first generation designs stolen by the terrorists. At Faliall's request, the production of the first generation ATAC's was stepped up until the newer ATAC's were fully tested for mass production.

Rebel Weapons

The History of Rebel ATAC.

After the Royal Army began their campaign of converting the mining machinery to military purposes, terrorist organizations put a price on the capture of this technology. Buster, the wealthy industrialist that was to persuade Stephan to start a civil war, obtained these secret plans for converting ATACs. The price paid to the terrorist organization that had stolen them was steep, but it paled in comparison to the amount of money he stood to make by supplying Stephan's army. Knowing that success in battle requires a technological advantage, Buster set about hiring brilliant engineers to improve upon the Royal army's ATAC designs.

The Royal Army was fearful at the prospect of someone like Buster being able to produce mass quantities of ATACs to be used against the Belosian Empire. Through his network of palace spies, Buster learned that the Royal army knew about and planned to destroy his secret factories. Using this advance knowledge, he was able to move the sites before the Imperial forces arrived.

After Buster convinced Stefan to declare war, Stephan smuggled some of the newer technology used in the Royal Army's ATACs with him to Jaroa. Using this information, the Rebel Army began developing some of the most powerful ATACs ever built.
